

# A-GAS®

## INTRODUCING A-Flush+

A-Flush+ packs allow for a simple, quick and easy way to flush contaminants from equipment in an effective manner. A-Flush+ is used as a flushing agent in the automotive air conditioning, domestic and commercial sectors.

A-Flush+ is sold in a convenient shrink-wrapped "triple pack" giving a total of 1 920g of product

Valves are supplied separately and can be used on all other A-Gas "RAPID" products

Special technology allows the valve to be removed safely without product loss

A-Flush+ packaging and labelling complies with local legislation
